

## **RESEARCH AND INNOVATION POLICY FOR PROMOTION OF RESEARCH**

### **Preamble**

At Prem Chand Markanda S. D. College for Women, we believe that research is the cornerstone of academic excellence and societal progress. Our Research Committee provides a dynamic framework to guide and inspire scholarly pursuits among graduate students, faculty members, and staff. This policy is dedicated to fostering a vibrant research culture that promotes innovation, critical thinking, and professional growth. By nurturing the intellectual curiosity of our academicians and students, we aim to contribute to knowledge creation, address real-world challenges, and uphold the values of academic integrity. The Research Committee, under the esteemed leadership of the Principal, will spearhead the implementation of this policy. Together, we strive to transform Prem Chand Markanda S. D. College for Women into a hub of innovation, collaboration, and research excellence.

### **Objectives Of Research Committee**

"Our research policy outlines a structured approach aimed at encouraging innovation with the following goals:"

- To cultivate and nurture a research-oriented mindset among faculty members and postgraduate students across various disciplines at Prem Chand Markanda S. D. College for Women.
- To identify key research areas and prioritize topics of academic, practical, and societal significance.
- To guide and recommend departments in organizing seminars, conferences, workshops, and training programs on research methodology, intellectual property rights (IPR), and entrepreneurship.
- To provide faculty and students with the necessary support and mentorship for publishing research in esteemed journals.
- To act as a facilitator by offering professional guidance, technical assistance, and recommendations for financial support related to research activities.
- To support faculty members in preparing and submitting research proposals to government and non-government funding organizations.
- To strengthen industrial partnerships and establish research collaborations of both national and international standing.
